DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1, 6 and 11, have been considered but are most in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 103

- 2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 3. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).
- 4. Claims 1, 6, and 11, are rejected under 35 U.S.C. 103(a) as being unpatentable over Dosaka (P.N. 6,445,876) in view of Takada et al (JP 403127281A).

Dosaka discloses an image reproducing apparatus that shows substantially the same limitations recited in claims 1, 6, and 11, including the feature of storing a plurality of moving pictures and displaying the plurality of moving pictures (See the capability of

Art Unit: 2621

playing back stored moving pictures recited in claim 1 of Dosaka), the feature of compiling a menu of moving pictures displayed when an input is accepted (See the capability of receiving selection of any scene being playback and the capability of storing the same in the storage means as described in claim 1, lines 3-11, of the cited Dosaka's reference) and the feature of displaying the menu of moving pictures compiled by the moving picture menu compiling unit as specified in the present claims 1, 6, and 11. (See Dosaka's claim 1, lines 12-16).

Dosaka fails to specifically disclose the feature of displaying the moving pictures at time intervals which are determined prior to the display of the plurality of moving pictures as specified in the present claims 1, 6, and 11.

Takada et al discloses a video reproducing apparatus which shows the feature of displaying the moving pictures at time intervals which are determined prior to the display of the plurality of moving pictures as specified in the present claims 1, 6, and 11. (See the paragraph entitled "constitution" of Takada).

It would have been obvious to one skilled in the art to modify the Dosaka's apparatus wherein the reproducing means provided thereof would incorporate the capability of reproducing and displaying the moving pictures at time intervals which are determined prior to the display of the plurality of moving pictures in the same conventional manner as is shown by Takada et al. The motivation is to increase the accuracy and the quality of the reproduced and displayed video data on the display means as suggested by Takada.

5. Claims 2-5, and 7-8, contains allowable subject matter over the prior art of record.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to ROBERT CHEVALIER whose telephone number is (571)272-7374. The examiner can normally be reached on MM-F (9:00-6:30), second Monday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thai Tran can be reached on 571-272-7382. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
